

Capstone Project Overview

- Required for all 8th graders to complete
- Can be completed individually or in teams of 2 or 3
- Will include Research, Service Learning (community service), Character Reflection, Presentation components
- Students will choose a topic that they are interested in and want to learn more about – these topics should lend themselves to a service learning component as well. For example, a student interested in Gardening could do research about certain plant species, benefits, etc. and then volunteer to plant a community garden in their town.
